The Work on the Buins Interrupted by the Ruin, but Considerable Progress Was Made - A Revolver Found Beside the Body of Reitzell-Identified by Teeth.

Another body has been found in the ruins of the Stumph & Bro. mattress factory, making the total number of dead six and three still missing, two of whom are supposed to be the unidentified bodies in the morgue.

It was 5:30 o'clock yesterday afternoon when the fifth body was discovered and carried to the murgue, where it was identified as the remains of Robert Reitzell, of No. 680 E. street southwest. The complete list of dead

The rain which fell in the afternoon and evening interlered to a considerable extent with the work of excavation, but did not detect the diagrees in their efforts to recover the charred toolies of the buried men. The gang of lifteen inhorers from the water department was augumented in the afternoon by forty more men who worked all night in clearing away the debris.

A WEEK DEFORE IT IS CLEARED,

Foreman McGuire, who is in charge of the men, said it will be at least a week before the mass of ruins is completely removed. There are but a few picks and shovels to be obtained, and the men are compelled to use their bunds in digging out the dirt and bricks. The gang is divided into two sections, one working in the front part of the building, next the east wall, and the other in the rear in the inity of the elevator shaft, where the four were discovered Monday afternoon. Chief Parris was sure there were two bodies at the elevator, and twenty men were put to work there. After digging for five bours all recound the shall without finding the bodies the search in that section was abandoned, and the gang began digging just north of where

SLOW WOME OF RECOVERY. Fifteen workmen from the water department began clearing away the mass of debris early yesterday morning. Major Moore learned of the difficulty and applied to the Commissioners for more men. applied to the Commissioners for more men. The necessary authority for their employment was given, and at 3 o'clock forty new hands were employed. The work progressed rapidly, and by dusk half of the debris in the rear of the building had been removed. During the afternoon a number of ladies visited the scene and examined the burnt and water-scaked carpets strewn about on the asphalt, hoping to find their brussels or ingrains left to be cleaned only a few days before the conflagration. Some of these carpets are valued as high as \$500, but the owners will have to stand the loss.

As the hours passed and midnight approached the speciators returned to their homes, leaving the half dozen patrolmen to watch the blackened ruins, while the laborers within dug on in the hope of finding the one body which it is believed is buried beneath tons of debris.

GOV. FLOWER DECLINES.

cides Not to Be a Candidate.

ALBANT, N. Y., Sept. 18.-Gov. Flower had a conference with Senators Hill and announced that he would decline to be a candigate for renomination. He said:

"I am convinced that my nomination, if it should be accorded to me by the convention, would not be so likely to command the full vote of the party as would be the nomination of some other Democrat, and I am too desirous of party success to be a candidate under

ese circumstances,"
When Senstor Hill left the executive chamber he went direct to the residence of John B. Thatcher. This is said to have a great deal of significance, as Mr. Thatcher has been mentioned as a candidate for Governor.

BROWN WAS A LIVING FRAUD

Deceived His Bride and Priends and at Last Skipped from Town.

THE RACE TRACK WAS HIS RUIN

Having an Unusual Run of Luck He Resigned

After deceiving bride and friends, and living a singular dual life for about six months, Sylvanus Brown has left the city for parts unknown with his young wife, leaving behind

him an angry army of creditors and dupes. The story of young Brown's career during the length of time mentioned is peculiar and interesting. He is handsome and engaging, about twenty-four, and a native of Connellsville, Pa. Securing a position under the government as a clerk in the navy yard, Brown came here about a year ago. Finding that his circumstances permitted the action, the young man became engaged to a pretty girl living in Connellsville, named Flora Weldon, and the wedding was fixed for last nen to April.

As the day drew near for the celebration of the ceremony the young man reglected the promptings of prudence and, as he afterward confessed to a friend, thought to increase his savings by gambling, the races being a favorite game. As sometimes happens under such conditions, but very rarely, Brown was unusually lucky, and the few hundred dollars he had saved for the marriage state soon multiplied until he had \$2,800 in his pos-

Consequently he had made many acquantances, and some of these, who are business men, believed him to be wealthy. Brown was not slow to take advantage of this confidence, and borrowed sums of money from various sources, with which he tried to re-

oup his losses.

But the effort was in vain. Finally Brown pussed several checks that were afterward discovered to be bogus. The storm began to gather, and before it burst Brown told his unsuspecting wife that he had secured leave of absence and was going on a vacation at once. This much the wife confided to a friend.
